Billing: Har Department ka Apna Bill

HMS · Billing, Lab, Pharmacy aur Finance · ye kaise kaam karta hai · October 2026

Ek line mein: **OPD, Lab aur Pharmacy teeno apna-apna bill banate hain aur apne counter par paisa lete hain.** Dawai ka paisa kabhi OPD ke bill mein nahi judta, aur test ka paisa kabhi doctor ki fees ke saath nahi. Malik aur manager sab kuch ek jagah **Billing › Finance** par dekhte hain, jahan har rupaya sirf ek baar gina jaata hai.

1. Kaun kya bill karta hai

Department	Bill mein kya hota hai	Bill kab banta hai	Paisa kahan liya jaata hai
OPD	Doctor ki fees (ya follow-up fees), "Per visit" aur "Procedure" wali services	Settings ke hisaab se: check-in par, consultation ke baad, ya sirf jab desk banaye	Billing counter (Take payment)
Lab	Us order ke priced tests, order ke din ki keemat par	Test order hote hi, lab sign-off ke baad, ya sirf haath se	Billing › Invoices (Laboratory)
Pharmacy	Dawaiyan aur saamaan	Hamesha sale ke waqt, counter par	Pharmacy counter hi — Billing jaane ki zarurat nahi

Ek visit mein teen bill ho sakte hain: OPD ka, har lab order ka ek, aur pharmacy ka. Teeno alag hain, isliye koi cheez do baar charge nahi hoti.

2. Settings › Billing ke chaar hisse

Hissa	Kya set hota hai
Organisation defaults (sabke liye)	Patient poora paise de ya hissa ya baad mein (credit); kaunse payment methods chalte hain; bill theek karne ki ijazat; currency aur tax; bill par chhapne wali terms aur footer
Per branch	Har branch ke bill, receipt, refund, pharmacy bill aur pharmacy return ke number prefix. Branch ki apni keemat **Services & prices** mein.
Billing by department	OPD kab bill banaye, Lab kab bill banaye. Pharmacy ka card sirf dikhata hai — uski settings **Pharmacy › Settings** mein hain.
Finance	Upar "Finance" button — sabka paisa ek jagah (section 8)

Pehle ek hi "When is the bill made?" sabke liye tha, jismein "After medicines are given" aur "After lab tests" bhi the. Agar aapne inmein se koi chuna tha, to woh value database mein waise hi rakhi hai, badli nahi gayi; lekin ab OPD use "After the consultation" maanta hai, jab tak aap OPD card mein naya choice save nahi karte. Screen par iska note dikhta hai.

3. OPD billing

Bill mein kya judta hai

- **Doctor ki fees** — doctor ke profile ki "default consultation fee".
- **Follow-up fees** — agar patient usi doctor ke paas, pichhli visit mein doctor ke likhe follow-up dinon ke andar wapas aaya, aur price list mein "Follow-up fee" service hai, to doctor ki fees ki jagah yeh lagti hai. Isko 0 rakhein to follow-up free.
- **"Per visit" aur "Procedure" services** — har visit ke bill mein apne aap. Agar branch ki apni keemat hai to sirf wahi lagti hai, organisation wali saath mein nahi.

Kab banta hai

Setting	Kya hota hai
When the patient checks in	Check-in hote hi bill. Fees pehle lene wali clinic ke liye.
After the consultation	Doctor "Complete" kare tab bill. Sabse aam.
Only when the desk bills it	Kuch apne aap nahi. **OPD › Today** par khatam hui visit ke saamne **Bill visit** button aata hai (sirf jinke paas bill banane ki permission hai).

Ek visit ka ek hi OPD bill. Consultation dobara khole aur complete kare, ya Bill visit do baar dabaye — wahi bill wapas milta hai. Bill bante hi "ready to pay" hota hai; ab koi bill draft mein atka nahi rehta.

4. Lab billing

Har lab order ka apna bill (Billing › Invoices mein "Laboratory" likha hota hai). Purani organisations ke liye default **"Only when the lab counter bills it"** hai — jab tak aap nahi chunte, kuch apne aap bill nahi hota.

- **When the tests are ordered** — order bante hi bill; sample se pehle paisa.
- **After the lab signs off** — result complete hone par bill.
- Order mein test badle ya ek test cancel hua: jab tak paisa nahi liya, bill apne aap order ke saath badal jaata hai.
- Poora order cancel: bina paise wala bill bhi cancel. Agar paisa le liya tha to bill khada rehta hai — paisa wapas dene ke liye refund karein, taaki record rahe.

- Lab module band ho jaaye to naya lab bill nahi banta, lekin purane lab bill Billing aur Finance mein dikhte rehte hain.

5. Pharmacy counter

- Sale ke saath hi paisa counter par. OPD patient ki dawai bhi wahin — kabhi OPD bill mein nahi.
- **Payment methods** wahi jo Settings › Billing mein chalu hain. "Credit" koi method nahi hai.
- **Credit** (udhaar) pharmacy settings ka "credit sales" switch decide karta hai, aur sirf registered customer ke liye.
- **Baad mein paisa lena**: **Pharmacy › Bills** → bill kholein → **Take payment**.
- **Return**: bill kholein → **Take a return** → kitna wapas aaya likhein. Stock usi batch mein wapas jaata hai. Paisa sirf utna wapas jitna naye total se zyada diya gaya tha; udhaar wale bill par baaki raqam kam ho jaati hai. Har return ka apna number, jaise `GGN/PHR/26-27/00001`.
- **Cancel**: stock wapas, aur liya hua paisa "refund" row ke roop mein record hota hai.
- Naye pharmacy bill branch aur saal ke hisaab se: `GGN/PH/26-27/00001`. Purane bill apne purane number (jaise `INV-00042`) ke saath rehte hain.

6. Payment ke niyam

Setting	Counter par kya hota hai
Pay in full (default)	Ek baar mein poora bakaya lena padta hai. Patient do tarah se de (jaise ₹300 cash + ₹200 UPI) to Take payment mein **Split across another method** se dono ek saath daalein.
Part payment allowed	Kuch abhi, baaki baad mein. Visit tab tak "Payment pending" rehti hai.
Pay later (credit)	Registered patient bina poora paise diye ja sakta hai; visit band ho jaati hai aur raqam Outstanding mein dikhti hai. Walk-in ke liye credit nahi.

> Dhyan dein: "Pay in full" pehle se default tha lekin lagu nahi hota tha. Ab lagu hota hai. Agar aapki clinic kishton mein paisa leti hai, to Settings › Billing mein "Part payment allowed" chunein.

Double click se do baar paisa nahi kat-ta. Payment, refund, pharmacy collection aur return — har window apni ek pehchaan (key) bhejti hai; dobara click par wahi pehli entry wapas milti hai.

7. Refund aur bill theek karna

Refund bill ko credit karta hai. Matlab jo paisa wapas diya, woh dobara maanga nahi jaata. ₹500 ke bill par ₹500 liya aur ₹500 wapas diya: bill **Refunded**, bakaya 0. ₹200 wapas diya: **Part refunded**, bakaya 0.

Bill ki haalat	Kya badal sakte hain
Draft (purana, band nahi hua)	Lines theek ho sakti hain

Bill ki haalat	Kya badal sakte hain
Bana hua, koi paisa nahi liya	Sirf agar Settings mein "Let staff correct a bill until money is taken" chalu hai
Kuch bhi paisa liya gaya (refund ke baad bhi)	Kabhi nahi. Refund karein, ya cancel karke naya bill banayein — dono ka record rehta hai

Haath se banaye bill mein sirf service, procedure ya likhi hui line ja sakti hai — koi "pharmacy" ya "consultation" line haath se nahi. Har badlaav (pehle aur baad ki lines) activity log mein jaata hai.

Har bill par uski **currency aur tax ka tareeka** (tax shamil ya upar se) bante waqt likh diya jaata hai. Settings badalne se purana bill nahi badalta.

8. Finance screen

Billing › Finance (permission: "View finance across OPD, lab and pharmacy"). Paanch numbers, kabhi ek doosre ki jagah nahi:

Number	Matlab
Billed	Chune hue samay mein jitne ke bill bane (draft aur cancelled nahi)
Collected	Jitna paisa sach mein liya gaya, jis din liya gaya
Refunded	Jitna wapas diya gaya
Net collections	Collected minus Refunded
Outstanding	Aaj kitna baaki hai, bill kabhi bhi bana ho

Department, branch, payment method aur din/mahine ke hisaab se bhi. Neeche sabhi departments ke bill ek list mein. Paisa sirf payment ki entries se gina jaata hai, isliye koi payment do baar nahi judti. Branch manager sirf apni branch dekhta hai.

9. Kisko kya dikhta hai

Kaam	Permission
Billing settings badalna	Change billing settings (sirf organisation level)
OPD / lab / manual bill banana	Create invoices
Invoice par paisa lena	Record a payment
Refund	Refund a payment
Pharmacy par paisa lena	Sell at the counter, ya Dispense prescriptions
Pharmacy return / cancel	Cancel a bill or take goods back

Kaam	Permission
Finance dekhna	View finance across OPD, lab and pharmacy (Branch manager, Accountant, Head office ke templates mein)

Lab order par uska bill sirf unhe dikhta hai jo billing dekh sakte ya paisa le sakte hain. Doctor ko nahi.

10. Developers ke liye

Kya	Kahan
OPD aur lab kab bill karein	`app/Services/Billing/BillingTriggerResolver.php`
Bill, payment, refund, edit (niyam)	`app/Services/Billing/BillingService.php`
Finance report	`app/Services/Billing/FinanceReports.php, FinanceController.php`
Pharmacy sale, collect, return, cancel	`app/Services/Pharmacy/Sales/SalesService.php`
Migrations (sirf jodte hain, kuch delete nahi)	`database/migrations/organization/2026_10_22_000000_separate_module_billing.php, 2026_10_22_000100_pharmacy_collections_returns_and_numbering.php`
Tests	`tests/Feature/Api/V1/Tenant/BillingRulesTest, ModuleBillingTest, PharmacyCollectionsTest, FinanceReportTest`

Naya tenant migration aane par dev DB par `php artisan tenants:migrate` chalana hota hai.
